

Praveen Raj

Projects

- **College website clone**

Created website using HTML/CSS, JavaScript

- **Netflix clone**

As a team leader, I handled the team and the major technologies we used were ReactJS, TypeScript, NodeJS, and Firebase.

- **ML model and deep learning model**

1 Built a Stock market prediction model with the help of TensorFlow and Keras and used RNN, LSTM, and GRU to complete the model.

2. Automated ML Tool for classification Problem

- **Doubt and feedback system**

Used PHP, SQL database as backend and HTML, CSS for frontend.

Description

As a Computer Science student, I specialize in Machine Learning and possess a strong foundation in data structures. My academic focus is complemented by practical experience, contributing to a well-rounded skill set in the field of Computer Science and Engineering. Passionate about creating responsive, user-friendly websites that drive digital success.
